

TIB407 Indo Blue R/S Ink for Automotive Applications

TECHNICAL DATA SHEET

Technical Specifications	TIB407
Pigment Code	Pigment Blue 60 (69800)
% Pigment	13%
Strength	100 +/- 2
DE	< 0.5
Weight Per Gallon (lbs)	7.9 +/- 0.2
% Solids	35 +/- 2%
Viscosity	15 +/- 3 seconds #3 Zahn
Grind	7+

TIB407 is the most chemical-resistant red shade blue available. Its high stability makes it useful in automotive, pool liner, and outdoor applications. It is very red shade (redder than TPB-12D), but it maintains its excellent light and heat stability even in light tint. It has been supplied to many major USA automotive and PVC pool liner suppliers for more than 20 years.
