

# TUC2004 Crosslinker for Water-Based Adhesive

## TECHNICAL DATA SHEET

Technical Specifications	TUC2004
Viscosity	8.0 +/- 2.0 seconds #3 Zahn
Weight per Gallon (lbs)	7.0 +/- 0.2

TUC2004 is a crosslinker for water-based adhesive that is applied between PVC and polyester fabrics. TUC2004 is used in conjunction with TUC2003 by blending under agitation 97%/3% (TUC2003/TUC2004). Once crosslinked, this solution has a 24hour pot life. Crosslinked solution can be coated using a 120Quad roller on PVC & polyester fabric. Coated PVC/polyester is then put in press for 1min at 175°C.
